

**Tennessee  
Statewide  
Emergency Alert  
System (EAS)  
Plan**

**9/18/2025**

## STEP 1

## Operational Areas

### Operational Area Name

### Selected Areas

Shelby

Tipton, Lauderdale, Haywood, Fayette, Shelby

Madison

Hardeman, Crockett, Carroll, Henderson, Benton, Decatur, Chester, McNairy, Madison

Lawrence

Lawrence, Wayne, Hardin, Lewis, Perry, Hickman, Maury, Giles, Lincoln, Moore, Marshall, Bedford

Davidson

Davidson, Humphreys, Houston, Stewart, Montgomery, Dickson, Cheatham, Williamson, Rutherford, Wilson, Robertson, Sumner, Cannon

Putnam

Putnam, Macon, Clay, Jackson, Overton, White, Warren, Cumberland, Fentress, Pickett, Trousdale, Smith, DeKalb

Hamilton

Hamilton, Marion, Franklin, Grundy, Sequatchie, Bledsoe, Van Buren, Rhea, Meigs, McMinn, Bradley, Polk, Monroe, Coffee

Knox

Knox, Blount, Loudon, Roane, Morgan, Anderson, Scott, Campbell, Union, Claiborne, Grainger, Jefferson, Hamblen, Sevier

Washington

Washington, Unicoi, Greene, Hawkins, Hancock, Sullivan, Carter, Johnson, Cocke

Obion

Lake, Obion, Dyer, Weakley, Henry, Gibson

[Start here by finding your county and note your operational area.](#)

## Monitoring Assignments

**STEP 2: Locate your operational area. Listed are the sources you can monitor.**

**You may choose any two or more stations listed.**

**Remember that you must also monitor the NWR in your area.**

**If you are unable to monitor any two of the sources listed for any reason please contact Mike Murrell at [engineering@tabtn.org](mailto:engineering@tabtn.org) as soon as possible.**

**Once you have completed verifying your monitoring sources, please move on to STEP 3.**

**All stations and cable providers are required to monitor the NWS via NWR as a third source per the approved State Plan. If you are using a Sage make sure you connect it to a proper input channel and set it to NWS.**

Operationa Area	Monitoring Sources		EAS Designation	PEP Station?
Davidson	WPLN	90.3	LP-1	N
	WSIX	97.9	LP-1	N
	WSM-AM	650	NP	Y
Hamilton	WUSY	100.7	LP-1	N
	WSKZ	106.5	LP-1	N
Knox	WUOT	91.9	LP-1	N
	WIVK	107.7	LP-1	N
	WJXB	97.5	NP	Y
Lawrence	WKWX	93.5	LP-1	N
	WLLX	97.5	LP-1	N
Madison	WZKV	90.7	LP-1	N
	WHHG	92.3	LP-1	N
	WYDL	100.3	LP-1	N

<b>Operationa Area</b>	<b>Monitoring Sources</b>		<b>EAS Designation</b>	<b>PEP Station?</b>
Obion	WOGY	104.1	LP-1	N
	WEGR	102.7	LP-1	N
	WCDZ	95.1	LP-1	N
	WWYN	106.9	LP-1	N
	WCMT	101.3	LP-1	N
Putnam	WLQK	95.9	LP-1	N
	WGSQ	94.7	LP-1	N
Shelby	WGKX	105.9	LP-1	N
	WLFP	99.7	LP-1	N
	WEGR	102.7	LP-1	N
	WYPL	89.3	LP-1	N
	WREC-AM	600	NP	Y
Washington	WETS-FM	89.5	LP-1	N
	WQUT	101.5	LP-1	N
	WDNX	89.1	LP-1	N
	WJCW-AM	910	NP	Y

## STEP 3

## Requested Event Codes

**NOTE: The SECC is aware that this list appears to be long and understands your concerns about interruptions to your daily broadcasts.**

**As you look at the list you will notice the majority of these codes have never been used. Our Goal is to be prepared in case they are ever needed.**

**We ask that all stations and cable companies include these codes in their EAS units.**

**We ask that you include these codes in your EAS unit(s) even if you normally go live so they can be rebroadcast in the event no one is able to get to the station.**

**Adding a slight delay to give your staff time to stop the rebroadcast is acceptable.**

Event Code	Name	Description
ADR	Administrative Message	A non-emergency message providing updated information about an event in progress, an event that has expired or concluded early, pre-event preparation or mitigation activities, post-event recovery operations, or other administrative matters pertaining to the Emergency Alert System
BZW	Blizzard Warning	Sustained wind or frequent gusts greater than or equal to 35 mph accompanied by falling and/or blowing snow, frequently reducing visibility to less than 1/4 mile for three hours or more.
BLU	Blue Alert	Police Event Alert
CAE	Child Abduction Emergency	Amber Alert
CDW	Civil Danger Warning	A warning of an event that presents a danger to a significant civilian population. The CDW, which usually warns of a specific hazard and gives specific protective action, has a higher priority than the Local Area Emergency (LAE). Examples include contaminated water supplies and imminent or in-progress military or terrorist events. Public protective actions could include evacuation, shelter in place, or other actions (such as boiling contaminated water or seeking medical treatment).
CEM	Civil Emergency Message	An emergency message regarding an in-progress or imminent significant threat(s) to public safety and/or property. The CEM is a higher priority message than the Local Area Emergency (LAE), but the hazard is less specific than the Civil Danger Warning (CDW).
EAN	Emergency Action Notification	(National only) Presidential Alert - National Emergency Message

EVI	Evacuation Immediate	A warning where immediate evacuation is recommended or ordered according to state law or local ordinance. As an example, authorized officials may recommend the evacuation of affected areas due to an approaching tropical cyclone. In the event a flammable or explosive gas is released, authorized officials may recommend evacuation of designated areas where casualties or property damage from a vapor cloud explosion or fire may occur.
FRW	Fire Warning	Fire weather messages in coordination with fire weather officials to alert of active fires including evacuations.
FFW	Flash Flood Warning	Short term flooding is imminent or likely.
FLW	Flood Warning	Flood warnings for forecast points are issued for any high flow, overflow, or inundation event threatening life and/or property, which can be quantified or indexed at specific locations and is not accounted for in flood or flash flood warning products.
HMW	Hazardous Materials Warning	A warning of the release of a non-radioactive hazardous material (such as a flammable gas, toxic chemical or biological agent) that may recommend evacuation (for an explosion, fire or oil spill hazard) or shelter-in-place (for a toxic fume hazard).
HWW	High Wind Warning	Wind speeds forecast to meet or exceed locally defined warning criteria. (Typical values are sustained wind speeds of 40 mph or greater lasting for 1 hour or longer, or winds of 58 mph or greater for any duration).
LEW	Law Enforcement Warning	A warning of a bomb explosion, riot, or other criminal event (e.g. a jailbreak). An authorized law enforcement agency may blockade roads, waterways, or facilities, evacuate or deny access to affected areas, and arrest violators or suspicious persons

LAE	Local Area Emergency	An emergency message that defines an event that, by itself, does not pose a significant threat to public safety and/or property. However, the event could escalate, contribute to other more serious events, or disrupt critical public safety services. Instructions, other than public protective actions, may be provided by authorized officials. Examples include a disruption in water, electric or natural gas service, or a potential terrorist threat where the public is asked to remain alert.
NPT	National Periodic Test	Nationwide Test of the Emergency Alert System
NMN	Network Message Notification	Not yet defined and not in the suite of products for relay by NWS. It is designed to be used as an update on network issues and repairs. It should be set up as a log only event if you're able to install it.
NUW	Nuclear Power Plant Warning	A warning of an event at a nuclear power plant classified as a Site Area Emergency or General Emergency by the Nuclear Regulatory Commission (NRC). A Site Area Emergency is confined to the plant site; no off-site impact is expected. A General Emergency is confined to an area less than a 10-mile radius around the plant. Authorized officials may recommend evacuation or medical treatment of exposed persons in nearby areas.
DMO	Practice/Demo Warning	Demo or Practice
RHW	Radiological Hazard Warning	A warning of the loss, discovery, or release of a radiological hazard. Examples include, the theft of a radioactive isotope used for medical, seismic, or other purposes; the discovery of radioactive materials; a transportation (aircraft, truck or rail, etc.) accident which may involve nuclear weapons, nuclear fuel, or radioactive wastes. Authorized officials may recommend protective actions to be taken.
RMT	Required Monthly Test	Required Monthly Test
RWT	Required Weekly Test	Required Weekly Test

SPW	Shelter in Place Warning	A warning of an event where the public is recommended to shelter in place (go inside, close doors and windows, turn off air conditioning or heating systems, and turn on the radio or TV for more information). Examples include the release of hazardous materials where toxic fumes or radioactivity may affect designated areas.
TOE	911 Telephone Outage Emergency	An emergency message that defines a local or state 9-1-1 telephone network outage by geographic area or telephone exchange. Authorized officials should provide alternative phone numbers with which to reach 9-1-1 or dispatch personnel.
TOR	Tornado Warning	TORs are issued when there is radar indication and/or reliable reports of a tornado or developing tornado.
VOW	Volcano Warning	A warning of current or imminent volcanic activity. Authorized officials may recommend or order protective actions according to state law or local ordinance.
WSW	Winter Storm Warning	Winter weather event including: 1. Singular Event: snow, lake effect snow (at regional discretion), ice, or sleet meeting or exceeding locally defined 12 and/or 24 hour warning criteria. 2. Multiple Event: a combination of snow, ice, or sleet and blowing snow with at least one of the precipitation elements meeting or exceeding locally defined 12 and/or 24 hour warning criteria. 3. Impact Driven: Winter storm is forecast but accumulations will not meet traditional criteria

**Please go to STEP 4 - Fill Out the Sources Monitored Sheet**
